

BUSWEST

ACTIVE AIR PURIFICATION

**Eliminates >99% of germs,
microbes, viruses, bacteria and
VOC in air and on surfaces**

CREATE A SAFER SCHOOL BUS ENVIRONMENT

WITH UNITED SAFETY'S PHI CELL® TECHNOLOGY BY RGF

- United Safety is a registered EPA establishment (99626-PA-1)
- Actively eliminates viral and bacterial pathogens
- Utilizes safe levels of naturally occurring hydrogen peroxide (H₂O₂)
- Increases air quality and safety for ridership and eliminates common odors and mold/mildew
- Causes no damage to interior surfaces or electronics
- Non-Corrosive
- No UV exposure
- Only requires annual maintenance and little to no driver interaction
- Allows a return to more routine, CDC recommended, cleaning cycles when used in conjunction with Aegis® Surface Protectant, resulting in a whole vehicle sanitized environment.
